Common challenges

Employee Engagement: Repetitive annual compliance training often leads to boredom and low retention.

Relevance: One-size-fits-all training doesn't address individual employee needs.

Administrative Burden: Compliance officers are overwhelmed with managing compliance priorities.

Rising Costs: Complex regulatory requirements lead to higher compliance costs.

Recharge your compliance learning.

It's time to question the traditional one-size-fits-all approach to compliance training and consider its relevance in today's environment. At Skillcast, we help 1400+ companies meet regulatory standards and their workforce's unique requirements.

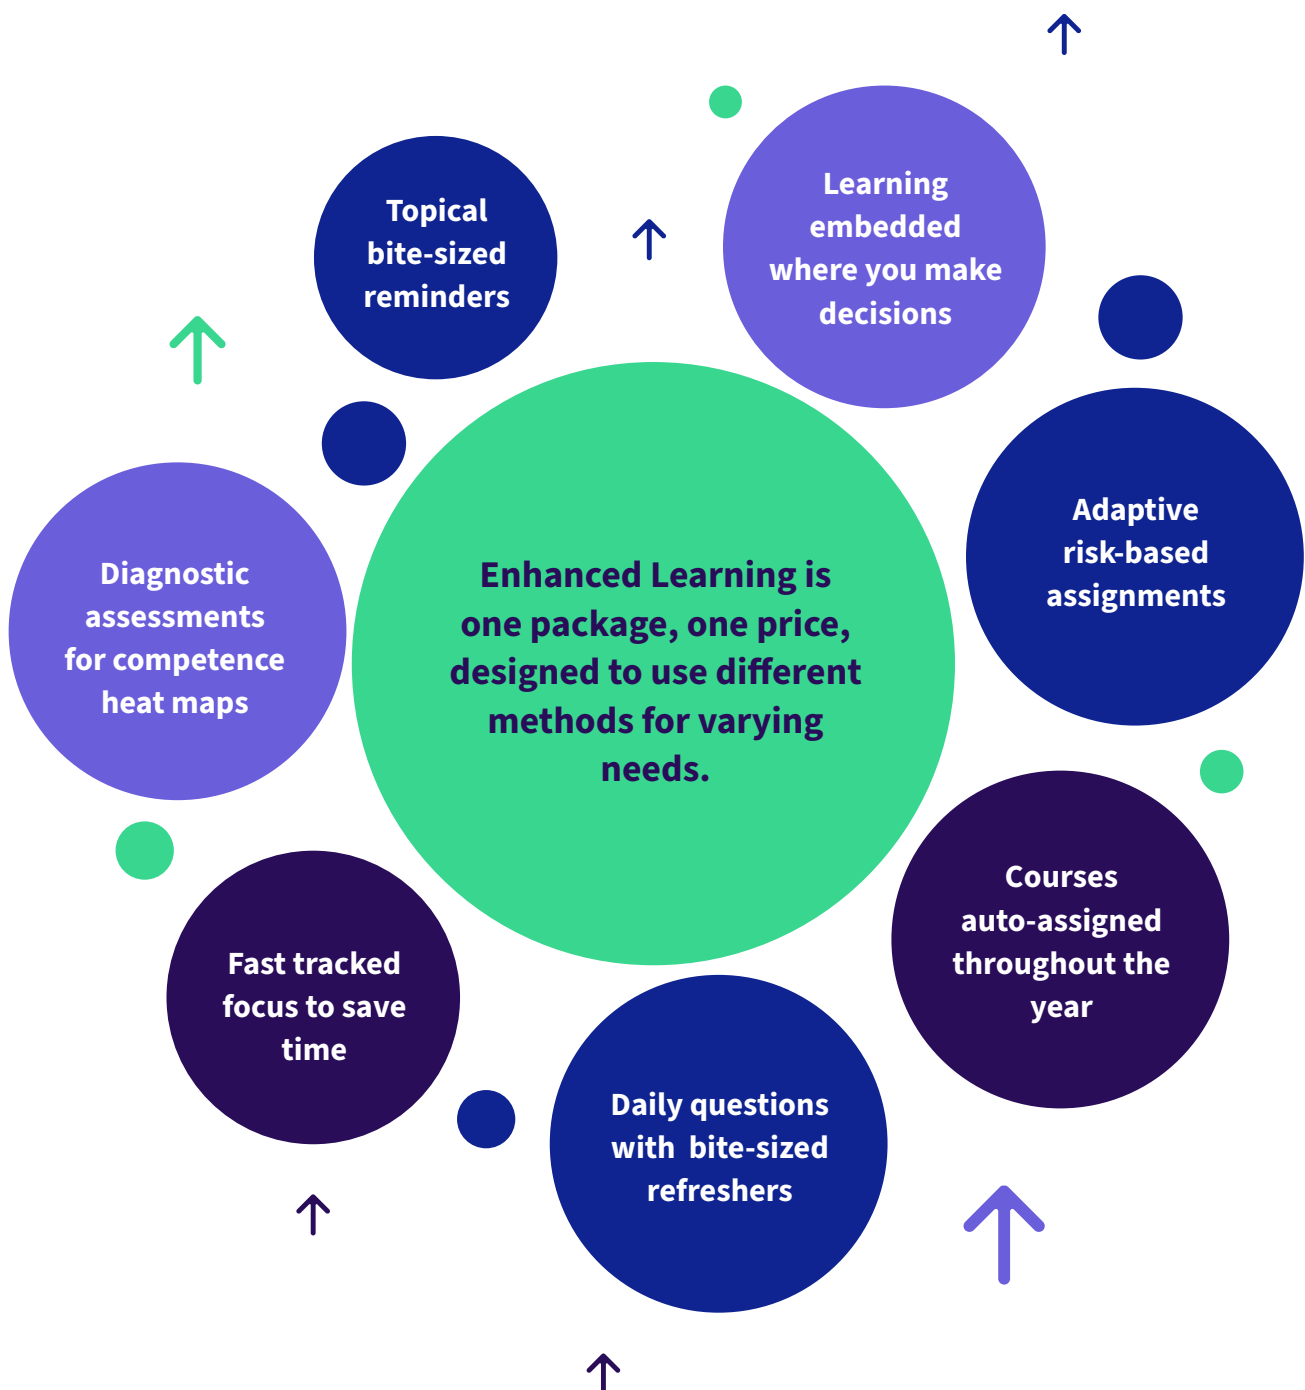

Our compliance training can adapt to meet the diverse needs of employees through modern methods like gamification, embedded learning, microlearning, adaptive learning, and role-specific training.

Our comprehensive solution

Skillcast Enhanced Learning engages employees with interactive and personalised content.

By assessing employee knowledge and tailoring training accordingly, we streamline administrative tasks, allowing you to focus on critical compliance issues while saving time and money.

Innovating the learning experience

Our enhanced features cater to your diverse needs, whether you need non-standard testing, multimedia, or immersive learning.

- **FastTrack** pre-course quiz to start any OTS course, with question banks ready for use
- **Nudge learning** questions delivered regularly to your inbox on topics that suit you, with a Compliance Bite suggestion
- **Embedded compliance** anywhere in your digital environment but tracked in our Learning Management System
- **Diagnostic assessments** to identify strengths and weaknesses, and then assign only learning that is required automatically throughout the year
- **Microlearning** short engaging videos with characters and storylines, engaging learners in a bite-sized format at the point of need
- **AI digital assistant** personalises learning and brings source material/policies to life by asking Aida questions.

Diagnostic Assignments

Our diagnostic quizzes identify strengths and weaknesses, creating competence heat maps.

This allows us to tailor assignments to the specific needs of each employee, ensuring they receive the most relevant training.

- ➔ **Ensure training relevance**
- ➔ **Identify and address knowledge gaps**
- ➔ **Reduce administrative workload**

Embedded compliance

Integrate compliance training seamlessly into daily workflows with links embedded in policies, documents, chats, emails, and the intranet, all tracked in our LMS.

This approach provides just-in-time training, making compliance accessible and relevant in real-time.

You can:

- ➞ Embed direct links to bite-sized learning in your company's digital workspace

- ➞ Promote learning when your staff need it, not as an annual tick box

FAST-TRACK **assessments**

Reward existing knowledge and reduce training fatigue with our FastTrack option. This method allows experienced employees to demonstrate their understanding of a topic through a quick pre-course assessment. Those who pass can opt for a short refresher.

- ➞ **Saves hundreds of learning hours by focusing on those with less understanding**
- ➞ **Evidences staff compliance as robustly as standard e-learning**
- ➞ **Lower compliance costs by minimising redundant training time**

Bite-sized learning

Microlearning videos can aid as a refresher on specific compliance issues, such as insider trading, special category data, tipping off and whistleblowing. They bring these topics to life in just a few minutes using animation, characters and storylines.

Our Compliance Bites videos can help engage and inform your employees about a specific concept, making them more appealing to your employees.
